Power-One Joins DOSA

Camarillo, CA – June 19th, 2007 – Power-One, Inc. (Nasdaq: PWER) announced today that they have joined DOSA (Distributed Open Standards Alliance). DOSA was established in February 2004 to develop standards for board-level DC-DC converters to ensure compatibility and facilitate second sourcing for customers.

Bill Yeates, Power-One's CEO, commented, "Power-One is looking forward to contributing to DOSA. We welcome the opportunity to enhance our broad line of board-level DC-DC solutions with products specifically developed in collaboration with this important, customer-focused industry alliance. We strongly believe that Power-One's DOSA membership will be in the best interests of our customers, and our company."

"DOSA membership now includes twelve of the world's largest and best known DC-DC converter manufacturers," said Sabi Varma, general manager Tyco Electronics' Power Systems business. "DOSA has established itself as the leading industry alliance and the de facto standard for DC/DC converter modules." Tyco is a founding member of DOSA.

Power-One products power high-availability infrastructure applications such as: alternate energy, routers, data storage and servers, wireless communications, optical networking, medical diagnostics, railway controls, and semiconductor test equipment. Power-One, with headquarters in Camarillo, CA, has global sales offices and manufacturing and R&D operations in China, the Dominican Republic, Hungary, Ireland, Italy, Slovakia, Switzerland, and the United States.
